OPERATIONAL EFFICIENCY AT EM NORMANDIE

Discover all our course materials used by the Manadvisors to deliver the seminar "Operational efficiency" as part of the Excellence Track at EM Normandie.

The seminar "Operational Efficiency" was offered to students following the Excellence Track during summer school at EM Normandie. It aims at preparing students to the operational day-to-day of a junior manager / consultant. This professional training program is designed to simulate real-life situations at work.

It mainly covers the concept and origins of operational excellence, the principles of Lean management, the main concepts of the operational efficiency's toolbox, and several examples and real implementations of such tools.
